## EDUCATION

KIIT UNIVERSITY  
MCA - Computer Science  
2025 - 2027

REVA UNIVERSITY  
BCA - Computer Science  
2022 - 2025

## SKILLS

Data Structures & Algorithms.

### Frontend (Web & Mobile):

- React.js, Next.js
- React Native
- Android App Development

### Backend & APIs:

- Node.js, Express.js
- RESTful APIs

### Databases & Storage:

- SQL & NoSQL
- MongoDB, PostgreSQL
- Cloudinary

### DevOps & Deployment:

- Vercel, Render & Git, GitHub.

### AI / ML & GenAI:

- Machine Learning, Deep Learning
- PyTorch, Scikit-learn
- CNNs, RNNs, Transformers
- LLMs, RAG, Agentic AI
- OpenAI APIs, NLP
- NumPy, Pandas

## ABOUT ME

Full-stack developer with practical experience building scalable web and mobile applications using modern technologies across the stack. Passionate about writing clean, maintainable code, collaborating in cross-functional teams, and delivering impactful, user-centric solutions.

## WORK EXPERIENCE

VEHO STUDY, BENGALURU - INTERNSHIP

**Full-Stack Developer** — JAN 2025 - MAY 2025

Full-Stack Developer Intern — VEHO Study Built scalable web applications using React.js, Node.js, Express.js, MongoDB, and MySQL. Integrated RESTful APIs, JWT authentication, and SSO, managed state with Redux, and optimised media handling via Cloudinary. Deployed projects on Vercel and Render, contributing to faster, more secure, and user-friendly applications.

## FREELANCE: FULL-STACK DEVELOPER

WEEDING GIFT HOUSE - (CLIENT PROJECT)

**Bengaluru, Karnataka, India** — JAN 2025 - MAY 2025

- Built a full-stack e-commerce platform (React, Node.js, MongoDB).
- Implemented secure authentication & REST APIs.
- Developed an admin dashboard for product & order management.
- Deployed cloud-hosted solution with scalable media storage.
- Implemented cart, checkout flow, and order tracking.
- Optimised performance and security with JWT protection and efficient APIs.

## PROJECTS

**Satinder PoetryMS** — Full-Stack Poetry Management Platform:

[satinderpoetry.com](#)

- Built a full-stack web platform enabling users to explore poetry while providing admins with tools to manage poems, users, and subscribers.
- Implemented poem browsing, detailed views, and newsletter subscriptions to improve reader engagement and content reach.
- Developed with React, Node.js, Express, MongoDB, and Tailwind CSS; deployed on modern cloud platforms for secure and scalable performance.

**AI Attendance App** — Intelligent Face & Voice Attendance System:

<https://ai-attendance-app-satinder.vercel.app>

Python, Streamlit, Supabase, Face Recognition, Resemblyzer, Librosa, dlib

AI-Powered Smart Attendance Platform

- Developed an AI-powered attendance management system using facial recognition and voice verification for secure and automated student attendance tracking.
- Built separate teacher and student dashboards with role-based access, attendance records, enrollment workflows, and subject management features.
- Implemented facial recognition pipelines using dlib, face\_recognition, and machine learning-based face embeddings for accurate identity verification.
- Designed modular Streamlit UI components for enrollment, attendance dialogues, QR-based subject sharing, and attendance analytics workflows.
